< To Foreign Country >

Access Code(010) → Country Code (U. S. is 1) → Phone Number

E-mail Set-up(Outlook Express)

ONLY NECESSARY IF YOU USE GLBB EMAIL

- ① Open up Outlook Express
- ② Go to **Tools** and **Accounts** Click on **Mail** Tab
- ③ Remove accounts that are in there already that you don't need
- ④ Click on Add and then select **Mail**
- ⑤ Type in your name for Display name
- ⑥ Type in your e-mail address **username@glbb.jp**
- ⑦ For incoming mail server (POP3) type in **pop.glbb.jp**
- ⑧ For outgoing mail server (SMTP) type in **smtp.glbb.jp**
- ⑨ Account name will be your Log-in name(same as your username)
- ⑩ Click to put a check in the My server requires authentication option and then click the Settings button.
- ⑪ On the Outgoing Mail Server settings page, select Use same settings as my incoming mail server and then click the OK button.
- ⑫ Select the Advanced tab from the top of the Properties window. In the Server Port Numbers section at the top, delete the current value in the Outgoing mail (SMTP) field and type the value 587 in this field.
- ⑬ Click the OK button on the Properties window. Then click the Close button from the Internet Accounts window to return to the main Outlook Express window and you should be finished.

※ Password will be your e-mail password
